

WARNING STATEMENT

JT Goggle Wear & Usage Statement

- **WARNING** Failure to follow these instructions or failure to follow all these warnings may result in serious or permanent injury, including blindness
- **WARNING** NEVER remove your goggles while on a paintball playing field
- **WARNING** Always wear your goggles whenever shooting paintball marker (gun), or whenever in or near an area where paint markers (guns) are being shot by others
- **WARNING** All paintball markers (guns) must be chronographed (measured for speed). Do not play with these JT goggles or any goggles if the speed of paintball markers (guns) exceeds 300 feet per second (fps) (90 meters per second). Observe at all times the rules of safe play and safe paintball marker (gun) handling.
- **WARNING** Always wear the entire JT goggle system, which includes face and ear protection. A goggle strap alone is not an ear protector.
- **WARNING** Check your goggles lens before and after each usage. Replace the lens immediately with a new JT lens if any cracks are observed anywhere in the lens.
- **WARNING** Replace the lens immediately if the lens is subjected to a direct impact from a paintball from a distance of less than 10 feet.
- **WARNING** Replace the lens after it has been in use for one year.
- **WARNING** Fogging may occur. Never remove your goggles during play even if fogging occurs.
- **WARNING** Use only for the sport of paintball with paintballs approved by ASTM. JT cannot guarantee protection for any other purpose.
- **WARNING** ALWAYS INSPECT JT GOGGLES THAT YOU ARE RENTING FROM A FIELD. NEVER ASSUME THAT THE FIELD OWNER HAS PROPERLY MAINTAINED JT GOGGLES OR LENSES. IF YOU DETECT CRACKS, PAINT OR OBVIOUS MAINTENANCE FAILURE, RETURN THEM TO THE FIELD OWNER AND DO NOT RENT THEM.
